Introduction to the Langlands program through classical examples

Professor Chung Pang MOK
Purdue University

Abstract

The Langlands program has been an important driving force in the development of algebraic number theory in the past several decades. In this talk, we will give an introduction to the subject, through classical examples.

Date: July 24, 2017 (Monday)

Time: 3:00 - 4:00 pm

Venue: Room 210, Run Run Shaw Bldg., HKU

All are welcome
