

SETL 2014 - 2015 semester 2

C_Code	V8 What were the best thing(s) about this teacher's teaching?
MATH299904	Professor Ching provides me invaluable insight in disseminating mathematics to general public, which is the main goal of our project. Meanwhile, he provides me so much information about the project which enables me to acquire knowledge that would not be included in normal syllabuses. It is my honor to work under Professor Ching's supervision.
