Work Distribution Form

I. WORK DISTRIBUTION

Students should define the responsible parts of each group member in detail. If certain chapters or parts of the report are written by more than one member, the proportion of the contribution of each member for that particular chapter / part should be indicated in percentage. If the space provided is insufficient, students may use multiple copies of the same form, all of which should be signed by all members. *This form should be inserted as the page(s) immediately after Acknowledgement (if any) of your interim and final written reports.*
